LANCER SYSTEMS MOVES TO NEW ALLENTOWN, PA FACILITY

Allentown, PA (June 2007) – Lancer Systems announced on 25 June 2007 that they have moved to a new facility in Allentown, PA. The new facility has over 17,000 square feet of office and manufacturing space.

Lancer Systems was formed on 1 January 2007, when it purchased the Defense and Fiber Optic businesses from Greene, Tweed and Co, Inc. and operated out of Greene, Tweed's Kulpsville, PA facility until the recent move was completed.

Lancer Systems is a world class team of engineering and manufacturing experts that are committed to developing and delivering innovating material solutions for tomorrow's most advanced warfighter systems. Lancer has the capability to design and manufacture elastomers, plastics, composites and optical connectivity products, as well as apply assembly and logistics expertise. Lancer fills the gap between prime contractor and component manufacturer. Our customer-centric philosophy is all about collaborative business relationships, adding value and delivering quality product on time.
